Federal Communications Commission
Office of the Secretary

Having read the three or four request for rules change for the Amateur Radio Services....
I do believe that the one that will best serve both the FCC and the amateur radio
community is RM 10868.

It may even set an example for the World to follow in the footsteps of the USA and
not the USA having to follow what the world wants. Thank you for reading this, I do hope
it is met with affirmative adoption.
